Camilo Henriquez

Full-Stack Engineer & AI Tooling

contact@camilohenriquez.com · San Pedro Sula, Honduras · Working remote · Worldwide · camilohenriquez.com · github.com/hnkatze · linkedin.com/in/hnkatze

Full-Stack developer with 4+ years of experience. In my current role (CIT) I focus on frontend and mobile with Angular (v17–v21), Next.js, Astro, Lit Element, and Flutter. In parallel, as a freelancer, I'm responsible for full-stack architecture on multi-frontend systems for enterprise clients. Author of open source MCP servers for integrating AI into dev workflows.

TECHNICAL SKILLS

FRONTEND

React (deep) · Next.js (deep) · TypeScript (deep) · Astro (working) · Angular (v17–v21) (working) · Tailwind CSS (deep) · JavaScript (deep) · Lit Element (working) · Flutter (working) · HTML & CSS (deep)

BACKEND

NestJS (deep) · PostgreSQL (working) · Go (starting) · C# (starting)

DATA, CLOUD & AI

CDC (Change Data Capture) — STREAMING
AWS DMS — CERTIFIED: BEST PRACTICES
Amazon Athena — MCP-LINKED
RAG (Retrieval-Augmented Generation) — CONTEXTUAL AI
Amazon Connect + ACXD — AWS TRAINING 2026
Fundamentos de ML/IA (AWS) — AWS TRAINING 2026

TOOLS & DEVOPS

Git (deep) · Jest / Vitest (working) · Playwright (working) · Docker (working) · GitHub Actions (working) · Firebase (working) · Vercel / Railway (working) · AWS (starting)

CERTIFICATIONS & TRAINING

ANTHROPIC (VERIFIED)

Introduction to Model Context Protocol ↗ verified
Claude with the Anthropic API
Introduction to Agent Skills
Claude Code in Action ↗ verified

TRAINING & LABS

Getting Started with Amazon Connect — Customer Agentic CX Designer (ACXD) — AWS Training & Certification, 2026 (sep.)
Fundamentals of Machine Learning and Artificial Intelligence (Español LATAM) — AWS Training & Certification, 2026 (sep.)
AWS Database Migration Service — Best Practices (Practical) — AWS Training & Certification, 2026 (oct.)
Lab — Create a Static Website with Amazon S3 — AWS Training & Certification, 2025 (oct.)
AWS S3 — AWS Skill Builder, 2025
Docker — Platzi, 2023
Flutter — Udemy, 2024
JavaScript — Udemy, 2022
HTML & CSS — Udemy, 2022

EDUCATION

Computer Science Engineering
CEUTEC · In progress

Bilingual University Technician in Call Center
CEUTEC · Completed

LANGUAGES

Spanish — Native
English — Professional

PROFESSIONAL EXPERIENCE

Associate Developer
July 2024 — Present

Creative Information Technologies

- Web development with Angular v17 to v21, applying signals, standalone components, deferrable views, and OnPush in production applications
- Mobile development with Flutter + Dart, clean architecture, and Riverpod
- Collaboration with cross-functional teams following agile practices and strict TypeScript code review
- Implementation of testing (unit + e2e) with Jest, Vitest, and Playwright

Freelance Full-Stack Developer
2021 — Present

Freelance

- Responsible for full-stack architecture on multi-frontend projects for enterprise clients (NestJS REST APIs, PostgreSQL)
- 25+ projects delivered with 100% client satisfaction: NGOs, e-commerce, service shops, and developer tools
- CI/CD pipelines with GitHub Actions, multi-stage Docker builds, and deployments on Railway, Vercel, and Firebase
- Author of open source tools: Swagger Extractor MCP (Go), PrimeNG MCP Server (TypeScript), FetchMate (HTTP library)

FEATURED PROJECTS

DEV TOOLS & MCP

Swagger Extractor — Next.js, TypeScript, TailwindCSS, ShadCN UI
Developer tool to upload OpenAPI/Swagger specs, filter endpoints by tags, test them live, and export in JSON or TOON format optimized for LLM prompts. Runs entirely in the browser with zero backend.

Swagger Extractor MCP — Go, MCP, OpenAPI, AI Tooling
MCP (Model Context Protocol) server written in Go that exposes Swagger Extractor operations as tools for AI assistants. Enables Claude, Copilot, and other LLMs to interact with OpenAPI specs programmatically.

PrimeNG MCP Server — TypeScript, MCP, PrimeNG, Angular
MCP server that provides PrimeNG component documentation as tools for AI assistants. Query props, examples, and best practices for Angular/PrimeNG directly from Claude Code or any MCP client.

FetchMate — TypeScript, HTTP, Library, Open Source
Lightweight TypeScript library for making fetch requests with strong typing, interceptors, automatic retry, and error handling. Designed to simplify HTTP calls in frontend and backend projects.

CLIENTS / REAL-WORLD

Honduras Social Foundation — Astro, TailwindCSS, TypeScript, Cloudinary
Website for Honduras Social foundation, an NGO transforming communities through education, entrepreneurship, and social inclusion. Operating in 50+ communities benefiting over 5,000 people. Every.org donation integration.

Taller Gerardito — Astro, TailwindCSS, TypeScript, WhatsApp API
Website for an automotive repair shop specialized in electronic diagnostics in San Manuel, Honduras. Pricing, testimonials, FAQ, and WhatsApp booking. Founded in 2015, with advanced diagnostics: scanners, oscilloscopes, and endoscopic cameras.

Taller Los Camilos — Astro, TailwindCSS, TypeScript, Vercel
Website for a professional welding and metalwork shop in Bonito Oriental, Honduras. Specializing in cattle tank fabrication, agricultural machinery repair, and metal roofing. Over 15 years of experience.
